

CORVAA BIO

CORVAA WAS BORN IN PIRAEUS, GREECE AND WAS BROUGHT TO THE UNITED STATES AFTER BEING ADOPTED AT SIX MONTHS OLD.

She was raised in an Italian-American household on Long Island, New York. She first developed an interest in singing at the age of twelve and took vocal lessons throughout high school but did not professionally pursue it until she was in her twenties. In December of 2013 Corvaa released her debut EP. Her first single, *In & Out of Love* has been well received across the United States and has been heard in additional countries as well. After she started to gain notice through social media she was nicknamed the 'Chameleon Vocalist'. This stems from her many different looks and the way she switches up her vocal styles to fit any record.

Corvaa has continued by releasing singles which include her well known record *Zipper*. This track gained attention in different digital write up's and blogs. After learning about the industry and feeling out different genres she felt an urge to complete her first album. *"I do not like to be predictable in my approach towards music. Whether it's altering live performances, switching my looks, or experimenting in different genres, it is important to me that you are continuously curious and intrigued."* In addition to her versatility as a vocalist, she also refers to herself as a musical entrepreneur. *"I've been pursuing a career in entertainment for the past seven years and throughout my journey I noticed a lot of things I did not like on the business side. As a female in this industry it's hard enough to advance but more importantly to be truly respected for what you do. That was when I decided to take control of my own career and oversee every aspect that goes along with it. In order to get to where you want to go, sometimes you need to become the leader and march to the beat of your own drum."*

In addition to being a vocalist, songwriter, and rapper, she is the owner of Corvaa Music LLC, having graduated Cum Laude with a BA in Communications with a specialization in Public Relations from Lynn University. Her accomplishments include: acceptance into John Robert Powers modeling agency in Manhattan; acceptance into Nine9 NYC; being cast as a lead on an episode of *Flaming Greek* for Foodie TV; interned at Rogers & Cowan NYC; is a member of RAW artists New York; received a citation for her performance at the Nassau Country Executive Building; writes a personal blog featured on LinkedIn. She additionally scouts for talent, does marketing, networking, assists other up-and-coming artists, etc. Corvaa recognizes that while a team is crucial no one will implement her vision better than herself.

She released her debut album, *Movin On*, in 2018 which incorporates Pop, Dance, Classical, House, Hip Hop, Rap, Rock, and R&B. Despite each track having its own message and blend of genres, the project comes full circle for her voice. Whether you take a liking to her soft falsetto on *Stay With Me*, feel the attitude on *Eraser*, or get hooked on the catchiness of her title track *Movin On*, it's clear how much she's grown as an artist. In June 2019 Corvaa released a Pop/Dance/R&B record called *Why Are We*. Shortly after its release, she put out a remix bundle that offered four different takes on the original: EDM, Deep House, Tropical, and Future House. Due to the different genres, it was very appealing to fans, DJ's and radio stations.

In January 2020, *Save Me*, (a Pop/Dance record) was received extremely well. This song was the first time she gained attention from *Hollywood Hamilton* on KTU. The station featured the record and a brief interview on their Remix Top 30 show. They loved the record so much that they also selected Corvaa as their Spotlight artist and further promoted her on their website. The *Save Me* remix bundle was released in February 2020 and only added to the original's popularity. Her latest and most current single, *Light Up The Sky*, was released in August of 2020. *Light Up The Sky* is featured on twenty seven different playlists through Spotify which helped make it her most streamed record on that platform. Corvaa has now received her first Billboard placement with most increased plays on the Dance/Mix show charts. At the same time she has been moving forward with her company, Corvaa Music, and actively recruiting/ developing artists of all genres. We are sure that 2021 is looking bright for this multi-talented entrepreneur.
